

- The FCC should not implement  
any proposal that would lessen  
Indiana's Telephone Privacy law  
protections.
- Indiana's Telephone Privacy law  
has improved my home time because I no longer  
have to worry about legions of obnoxious  
telephone solicitors calling me during family time.
- Indiana's law has changed my rate of receiving solicitors  
from a previous high of 26 calls/week to the current  
2-3 calls/month.
- Please do not force Indiana to weaken its excellent law. IF anything, the  
federal laws should be strengthened to meet or exceed Indiana's current law.

Thank you
